

RAINBOW DAISIES

MATERIALS:

Light colored flowers—white daisies or carnations work best

Food coloring

Small container of water

Kitchen shears

DIRECTIONS:

Fill a container with water

Snip the lower stem on each flower—keep the flowers short—like maybe 6-8” in length

drop several drops of food coloring into the water—saturating it.

Place the flower in the water

Wait 2 hours for the water to color the blooms
